

# DURASHELF

## DURASHELF WALL MOUNTED WARDROBE

The **DURASHELF** is a one piece molded fiberglass unit, designed to be wall mounted.

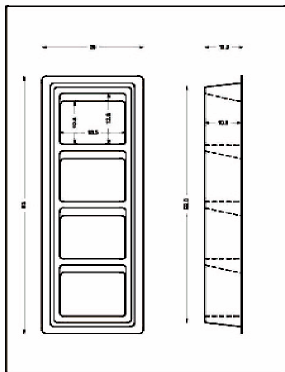

For this purpose, it has a perimeter flange that comes pre-drilled from the factory to accept fasteners.

All the corners and edges are rounded and the top of the shelf is sloped so as not to provide an anchor point for ligatures.

The shelf cavity is filled with rigid expandable foam for rigidity and to eliminate drumming. The surface is textured.

This unit is an ideal choice for a wardrobe in rooms and dormitories, it has no moving parts, attachments or seams, which makes them safe for the client and the staff and convenient to use, inspect and keep clean.

They are available as a four shelf unit (pictured) and as a two shelf unit.

### DURASHELF

Model	Height	Width	Depth	Weight
2460 S	63"	28"	11"	45 lbs.
2432 S	35"	28"	11"	29 lbs.
