

DURASAFE

DURASAFE WALL MOUNTED BED

The DURAMAX **DURASAFE** is a new generation line of cell beds. It has no exposed fasteners. Available as a right and left hand models. At 16" high, without the mattress, it will accommodate juveniles and adults. Ample toe space provided by the recessed base, large storage compartments, rounded corners and edges, fully enclosed sides, no seams and a textured surface finish, safe of ligature attach points. With all the features you have come to expect from GLASSPEC's molded fiberglass products. It is installed using adhesives.

The bed pictured above is the "RC" model, the "LC" is its mirror image.
