

SAFE FURNITURE

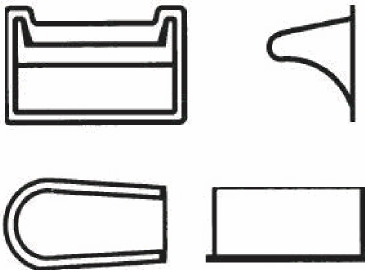

SAFDESK & SAFSTOOL NO LIGATURE SAFE FURNITURE

Addressing the need for Safe Furniture, not likely to cause injury or death, Glasspec is adding these two items to its furniture line, complementing the **DURASAFE** bed, introduced several years ago, which has no exposed fasteners.

The wall mounted **SAFDESK** has sloping ends which prevent any ligature to hold, it also has rounded corners and edges, and more knee space has been created for added comfort. It is molded in one piece. The cavity of the desk is filled solid to prevent drumming.

The **SAFSTOOL** attaches to the floor and wall eliminating the possibility of using a ligature with it. It also has rounded edges, is made in one piece and the inside cavity is filled solid. It is not attached to the desk and either piece can be purchased separately.

The flange along its perimeter is pre-drilled for fasteners.

SAFE FURNITURE

<u>Model</u>	<u>Height</u>	<u>Depth</u>	<u>Width</u>	<u>Weight</u>
SAFDESK	22"	15"	30"	25 lbs.
SAFSTOOL	17"	47"	13"	25 lbs.
